PROFESSIONAL SUMMARY

Full-stack developer focused on scalable web applications and cloud-based systems. Experienced with MERN stack, Supabase, and real-time architectures through production-grade projects involving tournament systems, ranking engines, and responsive UI engineering.

EDUCATION

B.Tech — Cyber Physical Systems & Computer Science | VIT Chennai 2024 – 2028
Currently in Third Year · Expected Graduation: May 2028

PROJECTS

SMASH.CLUB — Badminton Management Platform

2024

Stack: MERN (MongoDB · Express · React · Node.js) · Supabase · Vercel

- ▶ Production-grade full-stack platform for badminton clubs, academies, and individual players.
- ▶ Engineered tournament modules supporting Single Elimination, Double Elimination, and Round Robin formats.
- ▶ Designed an advanced ELO ranking engine with tiered player badges from Bronze to Diamond.
- ▶ Streamed live BWF international news and integrated a Pro Gear section linking equipment to Amazon & Flipkart.
- ▶ Built a cinematic dark UI with fluid animations and real-time Supabase backend for instant data synchronisation.

Live Demo: badminton-club-app-taupe.vercel.app

TECHNICAL SKILLS

Languages: C / C++ · Java · Python · PL/SQL

Web & Frameworks: React.js · Node.js · Express.js · REST APIs

Databases: MongoDB · Supabase · Relational Databases · PL/SQL

Cloud & DevOps: Google Cloud Platform · Vercel · Git · GitHub

Core Concepts: OOP · Data Structures · Computer Networking · Operating Systems

CERTIFICATIONS

- ▶ **Google Cloud Course** — Google
- ▶ **NISM — National Financial Literacy** — NISM (Qualified for College Round)
- ▶ **Computer Hardware, Operating Systems & Networking** — Udemy
- ▶ **C / C++ Programming** — IT Campus
